Re: Many Thanks for a Job Well Done

Dear Fraser:

Capital BBQ recently purchased from Weber Canada a shipping container filled with new but damaged barbecues. To repair these grills we were referred to your company, Fraser Assembly, by Chadwicks & Hacks of Hamilton.

We have been very pleased with your work. In only 7 or 8 working days you repaired the entire contents of the shipping container. Damaged goods were efficiently converted to saleable inventory.

We enjoyed working with you. You were knowledgeable, reliable and punctual. You were able to diagnose the repair problems of every grill and quickly make them ready for sale.

Capital is happy to recommend Fraser Assembly to anyone in our industry

With our sincere thanks,

A handwritten signature in blue ink, appearing to read "Chuck Shabsove", with a long horizontal flourish extending to the right.
